

# Sorting guide

**MIXED WASTE  
CONTAINER  
WASTE STATION**

Plastic items, glassware e.g. drinking glasses, halogen light bulbs, socks, underwear, nappies, ash, sofas, mattresses, wool-based insulation

**UTILISATION** in a waste-to-energy plant that generates energy from waste.

**Check out how to pack biowaste**  
rosknroll.fi/waste-advice

**BIOWASTE  
CONTAINER  
COMPOSTOR**

Food waste, fruit and vegetable peels, coffee grounds and tea bags, tissue paper

**UTILISATION** as biogas and fertilisers through anaerobic digestion and as topsoil after composting.

**0 €**

**CARTON  
CONTAINER  
RECYCLING POINT  
WASTE STATION**

Carton-, cardboard- and paperpackaging such as paper bags, toilet paper roll, kitchen paper roll, milk and juice cartons, takeaway containers in carton

**UTILISATION** in the production of new carton-packaging and various types of cartontubes.

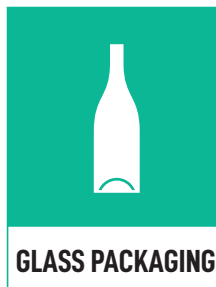

**0 €**

**PAPER CONTAINER  
RECYCLING POINT  
WASTE STATION**

Newspapers and magazines, copy paper and multipurpose paper, advertising brochures and envelopes

**UTILISATION** in the production of new newsprint and tissue paper.

**0 €**

**GLASS CONTAINER  
RECYCLING POINT  
WASTE STATION**

Clear and coloured glass packaging (bottles and jars)

**UTILISATION** in the production of new glass packaging.

**0 €**

**METAL CONTAINER  
RECYCLING POINT  
WASTE STATION**

Scrap metal and small metal items: foil, tins, empty paint tins, pots and pans, bikes, lawnmowers, wood-burning sauna stoves

**UTILISATION** in the production of new metal products.

**0 €**

**PLASTIC CONTAINER  
RECYCLING POINT  
WASTE STATION**

Plastic packaging such as packaging used for foodstuffs and detergents, plastic bottles and plastic containers, plastic bags, take away containers in plastic

**UTILISATION** e.g. in the making of new plastic bags, flower pots and buckets.

**MIXED WASTE  
CONTAINER  
WASTE STATION**

Household plastic products that are not packaging: plastic dinnerware, buckets, toys, boxes, furniture, shovels, etc. Small items in the mixed waste container.

**UTILISATION** as raw material for recycled plastic when sorted separately at waste stations. Mixed waste energy recovery.

**0 €**

**STORES  
WASTE STATION**

Household electrical equipment such as refrigerators, television sets, LED lights, mobile phones, battery chargers, IT equipment

**UTILISATION** in the production of new electrical equipment. Various raw materials can be recycled from the equipment.

# Sorting guide

0 €

**END-OF-LIFE TEXTILES**
